Byzantine Intersectionality Roland Betancourt 2020-10-06 "Intersectionality, a term coined in 1989, is rapidly increasing in importance within the academy, as well as in broader civic conversations. It describes the study of overlapping or intersecting social identities such as race, gender, ethnicity, nationality, and sexual orientation alongside related systems of oppression, domination, and discrimination. Together, these frameworks are used to understand how systematic injustice or social inequality occurs. In this book, Roland Betancourt examines the presence of marginalized identities and intersectionality in the medieval era. He reveals the fascinating, little-examined conversations in medieval thought and visual culture around matters of sexual and reproductive consent, bullying, non-monogamous marriages, homosocial and homoerotic relationships, trans and non-binary gender identifications, representations of disability, and the oppression of minorities. In contrast to contemporary expectations of the medieval world, this book looks at these problems from the Byzantine Empire and its neighbors in the eastern mediterranean through sources ranging from late antiquity and early Christianity up to the early modern period. In each of five chapters, Betancourt provides short, carefully scaled narratives used to illuminate nuanced and surprising takes on now-familiar subjects by medieval thinkers and artists. For example, Betancourt examines depictions of sexual consent in images of the Virgin; the origins of sexual shaming and bullying in the story of Empress Theodora; early beginnings of trans history as told in the lives of saints who lived portions of their lives within different genders; and the ways in which medieval authors understood and depicted disabilities. Deeply researched, this is a groundbreaking new look at medieval culture for a new generation of scholars"--

Spiritual Warfare Karl I. Payne 2021-03 The Bible is clear that we face three different types of opposition while attempting to successfully navigate life as Ambassadors for Christ. Our opposition is identified in Scripture as "the world" (1 John 2:15-17), "the flesh" (Romans 7:15-25), and "the devil" (1 Peter 5:8-9). The sad reality is that too many Christians lose more battles than they win and endure their walk with God rather than enjoy it because they often don't recognize how opposition through spiritual warfare actually works. More importantly, they have no idea how to effectively and efficiently respond to these attacks. Scripture nowhere indicates that a wish, a hope, a cliché, or a sincere guess represent adequate responses to attacks from these three very real enemies. Christians must be strategic in their responses to these clearly defined enemies, learning how to fight biblically rather than just sincerely. In

Spiritual Warfare, Dr. Karl Payne-- pastor of Leadership Development and Discipleship at Antioch Bible Church and former Chaplain for the NFL's Seattle Seahawks-- has written a guidebook for recognizing and responding to spiritual warfare that is simple, biblical, and transferable. Pragmatically speaking, the materials in this book are biblically sound, battle tested, and they work. As Christians we are supposed to live life as victors, not victims. It is past time we learn how to consistently walk our talk in the midst of conflict rather than passively sing songs or daydream about courageous Christian living.

Six Questions of Socrates: A Modern-Day Journey of Discovery through World Philosophy Christopher Phillips 2011-01-17 How people around the world grapple with the great questions posed by Socrates. What is virtue? What is moderation? What is justice? What is courage? What is good? What is piety? Socrates thought that understanding the perspectives of others on these six great questions would help him become a more excellent human being. Following in Socrates's footsteps, Christopher Phillips—"Johnny Appleseed with a master's degree" (Utne Reader)—investigates these same questions, beginning in the marketplace of modern-day Athens. He goes on to investigate the timely responses and outlooks of people from different cultures and backgrounds around the world: from Greece and Spain to Japan and Korea, Mexico City, and Chiapas, where the region's indigenous people struggle for fundamental human rights. Phillips also traveled throughout the United States, holding dialogues in diverse communities from New York City to the Navajo Nation. Introducing us to less familiar thinkers in non-Western traditions who were kindred spirits of Socrates, Phillips enlarges our perspectives on life's fundamental questions, creating an innovative world survey of philosophy.
