BIAlien Series Volume I Book 2 Carter 2011-03-24 Book 2 starts off with Jaden returning to Earth 18 years later in his upgraded spaceship. The year is 2014 and he has only aged 1-2 months. His bio-engineered body is slowly evolving into superhuman levels. His mission is to help scientist locate the Nanomole in humans and then deactivate it, before the Darclonian motherhip enters broadcast range. When a Nanomole is activated and is in the correct stage, it can control a human body. It would need to synchronize with a Bio-parasite for a permanent takeover of the human mind (Bio-parasites are Darclonians in microbe form). There is the first female president on television, along with commercials on holographic discs, 3D televisions, electric cars and onlineThird Virtual life.

There are also doctors in robotic remote controlled LCD screens. Times have changed and societal values have deteriorated significantly with the advent of the technology age. The combination of cheating, negotiated infidelity, high divorce rates, male and female robotic companions, and online virtual sex have helped to erode fundamental human values. Jaden is aware of a silent alien attack that is about to take place against humans. A countdown will soon begin, ending with all human brains being highjacked by nanomoles. Nanomoles are Darclonian microbes deposited on Earth after the last ice age. When the mother ship gets close enough to Earth, they activate and an eighty-four hour countdown begins. In the area of Jaden's mind that governs different personalities, there is a microscopic artificial intelligence alien companion named AI. Specifically designed for his mission on Earth, AI helps Jaden navigate his upgraded mind and

body, and is second in charge of the colony of nanodrones throughout Jaden's body. Jaden meets Dr. Chan, a Forensic Scientist. She is at the psychiatric ward to investigate why his DNA can't be identified. She first believes he is crazy and is not revealing his true identity. Jaden agrees to "show" her the truth instead of telling her. It is a race against time when Jaden's old government nemesis Vice President Robinson finds out he has returned to Earth. Robinson puts Jaden on a terrorist list and uses all the government's resources to kill him. Vice President Robinson keeps President S. Paylin in complete ignorance on the impending alien attack. Robinson believes Jaden is the conspirator and is causing the strange disorders in humans. Robinson begins his own conspiracy to be the next president of the United States. Love and romance follows the chapters as the silent attack on humans begins. What to expect? Jaden breaking out of a psychiatric ward. Jaden looking for family members. Jaden remote controlling into the pilots brains of a doomed 737. Jaden breaking into a federal prison using: Gravity shockwaves, Atomic solar recharges, 100% of his brain, Nanotime and Atom rippers. "...The first volume in a science-fiction series about a young man who's abducted by benevolent aliens, bio-engineered to superhuman levels and sent back to Earth years later to stop an alien invasion..." -KIRKUS DISCOVERIES. IMAGINE discovering a UFO and then having to hide inside of it after the elite unit of the army chases you to it in an attempt to kill you. Imagine having an out of body experience and flying a very advanced spaceship by pure thought. Going against jetfighters and making a mockery of the United States Air force. Imagine having your nerves and senses connected with the ship and feeling what the ship does. Imagine traveling from Earth to Jupiter in 30 minutes and then exploring Jupiter's ice ocean moon Europa, what

ocean aliens will you encounter? Imagine traveling towards our Sun at the speed of light and thinking you are going to die, only to have your molecules vaporized with the spaceship and transported in subspace through a system called Optic-warp. Imagine waking up on an alien planet in the Andromeda Galaxy that uses virtual worlds as a home city. Imagine meeting an Alien species 70,000 years ahead of humans, what will they tell you? What will you ask them? What is their species history? How can humans learn from the alien's past mistakes? Imagine learning Earth is about to be silently attacked by a rival species who want to use our bodies as part of a top secret experimental weapon that can destroy all alien species in the universe; and you are the only one who can help stop this attack. Would you allow alien Nanotechnology to evolve your body to super human levels where you'll be able to: Run and jump like the Hulk, defy and control gravity, create gravity shockwaves, create advanced energy shields, evolve your brain to think and move in Nanoseconds, and create atom ripper projectiles. Would you be up for an adventure of a life time?
