Undimmed Lustre Muriel Topaz 2002 Undimmed Lustre: The Life of Antony Tudor is a chronological biography of one of the most creative forces in dance of the 20th century. Born in 1908 in London, Tudor was raised in a lower middle class family on the streets of London's meat market district. Although he had no formal exposure to dance, he spent the first decade of his professional life as one of the founding members of the Ballet Rambert. In America, he became an all-important force and a prime mover in American Ballet Theatre for the most of its early history. His contributions to the development of the art of the classical ballet are inestimable, for he single-handedly introduced a new direction into the ballet world. Tudor imbued the simplest gesture with profound meaning, bringing drama into "academic" ballet, by mixing classical vocabulary, Freudian ideas, and Stanislavkian methodology and cinematic techniques into his dances. Tudor's enigmatic personality, his English propriety mixed with his rapier-sharp and often vulgar wit, his insecurities, and his total inability to compromise artistically, all made him a controversial figure in the very communal dance world. This book, written by Muriel Topaz, student, colleague, notator, assistant, and long time friend of Tudor's, reveals the misconceptions and contradictions that have attached themselves to the artist. Based on never-before seen personal archives, correspondence, and copious interviews as well as grant-supported research conducted in England, the United States, Sweden, Australia, Israel, Japan, and France, this work is a wonderful resource for dance teachers and students or anyone interested in classical ballet.

*A Handbook of Reflective and Experiential Learning* Jennifer A. Moon 2013-04-15 This handbook acts as an essential guide to understanding and using reflective and experiential learning - whether it be for personal or professional development, or as a tool for learning. It takes a fresh look at experiential and reflective learning, locating them within an overall theoretical framework for learning and exploring the relationships between different approaches. As well as the theory, the book provides practical ideas for applying the models of learning, with tools, activities and photocopiable resources which can be incorporated directly into classroom practice. **Hitchcock Nonetheless** Marc Raymond Strauss 2006-11-01 Alfred Hitchcock made many great films, but he also made many that critics and audiences largely dismissed. These least celebrated films, despite their admitted flaws and relative obscurity, offer much to reward the open-minded viewer. This critical study examines and reappraises fifteen such films generally overlooked by scholars and Hitchcock aficionados: *Juno and the Paycock*, *The Skin Game*, *Waltzes from Vienna*, *Jamaica Inn*, *The Paradine Case*, *Under Capricorn*, *I Confess*, *Torn Curtain*, *Number Seventeen*, *Rich and Strange*, *Secret Agent*, *Mr. and Mrs. Smith*, *Stage Fright*, *The Wrong Man*, and *Topaz*. Each film is discussed and analyzed in detail, revealing the master's touch in many previously unheralded ways. Brief assessments of the films from popular review compendia introduce each one, and excerpted highlights of numerous works of scholarship are liberally sprinkled throughout the text. In addition, wonderful rare still photographs from each film are included. Readers will come away with a richer sense of the director's talents in these films, adding to their appreciation of his work in unexpected ways.

*Hitchcock's Motifs* Michael Walker 2005 Among the abundant Alfred Hitchcock literature, Hitchcock's Motifs has found a fresh angle. Starting from recurring objects, settings, character-types and events, Michael Walker tracks some forty motifs, themes and clusters across the whole of Hitchcock's oeuvre, including not only all his 52 extant feature films but also representative episodes from his TV series. Connections and deeper inflections that Hitchcock fans may have long sensed or suspected can now be seen for what they are: an intricately spun web of cross-references which gives this unique artist's work the depth, consistency and resonance that justifies Hitchcock's place as probably the best know film director ever. The title, the first book-length study of the subject, can be used as a mini-encyclopaedia of Hitchcock's motifs, but the individual entries also give full attention to the wider social contexts, hidden sources and the sometimes unconscious meanings present in the work and solidly linking it to its time and place.

**Jewel of the Desert** Sandra C. Taylor 1993 In the spring of 1942, under the guise of "military necessity," the U.S. government evacuated 110,000 Japanese Americans from their homes on the West Coast. About 7,000 people from the San Francisco Bay Area--the vast majority of whom were American citizens--were moved to an assembly center at Tanforan Racetrack and then to a concentration camp in Topaz, Utah. Dubbed the "jewel of the desert," the camp remained in operation until October 1945. This compelling book tells the history of Japanese Americans of San Francisco and the Bay Area, and of their experiences of relocation and internment. Sandra C. Taylor first examines the lives of the Japanese Americans who settled in and around San Francisco near the end of the nineteenth century. As their numbers grew, so, too, did their sense of community. They were a people bound together not only by common values, history, and institutions, but also by their shared status as outsiders. Taylor looks particularly at how Japanese Americans kept their sense of community and self-worth alive in spite of the upheavals of internment. The author draws on interviews with fifty former Topaz residents, and on the archives of the War Relocation Authority and newspaper reports, to show how relocation and its aftermath shaped the lives of these Japanese Americans. Written at a time when the United States once again regards Japan as a threat, Taylor's study testifies to the ongoing effects of prejudice toward Americans whose face is also the face of "the enemy."
