**Karimayi** Chandrasekhara Kambar 2017 The story of the archetypal Mother, the mother of all Chandrashekhara Kambar's stories, variously called Mayi, Idimayi, and now Karimayi, is at the heart of this novel. The narrative of Karimayi moves through an astounding time span, beginning from the mythopoeic times of Goddess Karimayi's birth to the historical and cultural shifts in the life of a small rural community called Shivapura during the British colonial era. Written in the Kannada language in 1975, Karimayi breaks the familiar narrative of an idyllic and traditional village community getting destroyed by the incursion of modernity. Instead, the multiple and layered narrative of Karimayi weaves everything into itself the story of the village's past, the myth of Karimayi, the disorder that sets in with the

invasion of colonial modernity and the lure of the city, but, most importantly, also of the disruption of another form of native modernity that the village community has already begun to incorporate into its rhythms of life. " *Sharing Experiences* R. Purnima 2012

Jewish Communities of India Joan G. Roland 2018-01-16 Although the Bene Israel community of western India, the Baghdadi Jews of Bombay and Calcutta, and the Cochin Jews of the Malabar Coast form a tiny segment of the Indian population, their long-term residence within a vastly different culture has always made them the subject of much curiosity. India is perhaps the one country in the world where Jews have never been exposed to anti-Semitism, but in the last century they have had to struggle to maintain their identity as they encountered two competing nationalisms: Indian

nationalism and Zionism. Focusing primarily on the Bene Israel and Baghdadis in the late nineteenth and twentieth centuries, Joan Roland describes how identities begun under the Indian caste system changed with British colonial rule, and then how the struggle for Indian independence and the establishment of a Jewish homeland raised even further questions. She also discusses the experiences of European Jewish refugees who arrived in India after 1933 and remained there until after World War II. To describe what it meant to be a Jew in India, Roland draws on a wealth of materials such as Indian Jewish periodicals, official and private archives, and extensive interviews. Historians, Judaic studies specialist, India area scholars, postcolonialist, and sociologists will all find this book to be an engaging study. A new final chapter discusses the position of the remaining Jews in India as well as the status of Indian Jews in Israel at the end of the twentieth century.

**Transition to Eminence** G. M. Hiranandani 2005 This volume of the navy's history covers the period from 1976 to 1990. It examines the navy's success in keeping abreast of advances in technology in step with progressive self-reliance. In a decade and a half of innovation, the navy equipped its indigenously built frigates, corvettes, and other vessels with combinations of the latest available weapons and equipment from the Soviet Union, from Europe, and from indigenous sources. A tiny "ship design cell," which in 1965 was designing yard craft, was by 1990 designing an aircraft carrier, submarines, and missile destroyers. The new acquisitions from the Soviet Union ranged from missile destroyers, conventional submarines, and long-range reconnaissance aircraft, to minesweepers. All these high-tech

inductions needed to be operated and manned by better-educated and better-trained personnel. New maintenance, repair, and refit facilities had to be created. The increase in the volume of spares and the diversity of sources compelled modernization of the logistics system. This volume analyzes how these problems were tackled.

*Translating India* Rita Kothari 2014-04-08 The cultural universe of urban, English-speaking middle class in India shows signs of growing inclusiveness as far as English is concerned. This phenomenon manifests itself in increasing forms of bilingualism (combination of English and one Indian language) in everyday forms of speech - advertisement jingles, bilingual movies, signboards, and of course conversations. It is also evident in the startling prominence of Indian Writing in English and somewhat less visibly, but steadily rising, activity of English translation from Indian languages. Since the eighties this has led to a frenetic activity around English translation in India's academic and literary circles. Kothari makes this very current phenomenon her chief concern in *Translating India*. The study covers aspects such as the production, reception and marketability of English translation. Through an unusually multi-disciplinary approach, this study situates English translation in India amidst local and global debates on translation, representation and authenticity. The case of Gujarati - a case study of a relatively marginalized language - is a unique addition that demonstrates the micro-issues involved in translation and the politics of language. Rita Kothari teaches English at St. Xavier's College, Ahmedabad (Gujarat), where she runs a translation research centre on behalf of Katha. She has published widely on literary

sociology, postcolonialism and translation issues. Kothari is one of the leading translators from Gujarat. Her first book (a collaboration with Suguna Ramanathan) was on English translation of Gujarati poetry (Modern Gujarati Poetry: A Selection, Sahitya Akademi, New Delhi, 1998). Her English translation of the path-breaking Gujarati Dalit novel Angaliyat is in press (The Stepchild, Oxford University Press). She is currently working on an English translation of Gujarati short stories by women of Gujarat, a study of the nineteenth-century narratives of Gujarat, and is also engaged in a project on the Sindhi identity in India.

**The Sun Never Sets** Vivek Bald 2013-07-22 The Sun Never Sets collects the work of a generation of scholars who are enacting a shift in the orientation of the field of South Asian American studies. By focusing upon the lives, work, and activism of specific, often unacknowledged, migrant populations, the contributors present a more comprehensive vision of the South Asian presence in the United States. Tracking the changes in global power that have influenced the paths and experiences of migrants, from expatriate Indian maritime workers at the turn of the century, to Indian nurses during the Cold War, to post-9/11 detainees and deportees caught in the crossfire of the "War on Terror," these essays reveal how the South Asian diaspora has been shaped by the contours of U.S. imperialism. Driven by a shared sense of responsibility among the contributing scholars to alter the profile of

South Asian migrants in the American public imagination, they address the key issues that impact these migrants in the U.S., on the subcontinent, and in circuits of the transnational economy. Taken together, these essays provide tools with which to understand the contemporary political and economic conjuncture and the place of South Asian migrants within it.

Behind the News Frederick Noronha 2008-01-01 You can't be neutral about the media. Some are critical of it, some distrust it, but almost all of us are influenced by it. So why do newspapers in Goa behave the way they do? Can we get some clues from what insiders say about their experiences? This book covers over four decades of post-colonial Goa's newspaper scene. It offers colourful - if highly personalised, and often critical - stories of those who saw the media from the frontline. Read about the media and first assembly elections of 1963, and attempts in the 1970s to build alternatives in the English-language and Konkani. Many pages focus on the impact of the Herald (formerly O Herald) on journalism in contemporary Goa. In 1983, this paper switched from

being the last Portuguese daily published in Asia, to an English-language newspaper printed using the latest in computers and technology. But not without challenges of its own.... Journalists explain their travails of covering rural Goa. Included is the story of the birth of the Gomantak Times. Outstation journos have their own insights on the media scene here. Two essays cover Konkani journalism, making some bold and contentious points. Among others, one essay also looks at the implications of the entry of the Times of India into Goa in 2008. Don't miss this commentary on the media in Goa if you don't miss your morning newspaper each day.

**Making Breakthrough Innovation Happen** Porus Munshi

2015-04-21 India is known as a country not of innovation but of improvisation-or 'Jugaad', as they say in Hindi. But that has begun to change. We have enough examples in this country of people who have turned industry norms upside down to pull off the impossible in their fields. Eleven such case studies are featured in the book, including: Titan, which came out with the slimmest water-resistant watch in the world; Su-Kam, a power backup company that did not fit into an existing

industry but ended up creating a new one; Shantha Biotech, which developed a low-cost Hepatitis-B vaccine and ushered in the biotechnology age in India; Trichy Police, which rewrote policing paradigms to nip extremism and crime in the bud, thus transforming the city. Through the breakthroughs achieved by these organizations, Porus Munshi shows that to do what is considered 'impossible' in your particular industry, you have to be subversive and think differently. In the process, if the existing business model needs to be turned on its head, then so be it!
